BACKYARD BURN-OFFS

New Hobart City Council By-laws

The new by-law prohibits the burning of any garden waste, material or substance in an incinerator or by on-the-ground burning.

MORE ON THE CENSUS

The Association has received a letter from the Regional Director of the *Australian Bureau of Statistics* concerned that the letter reprinted from *The Mercury* in last month's Newsletter created a misleading impression of the *ABS's* role in valuing unpaid work.

The letter details how the *ABS* collects information on unpaid work in great detail via the *Time Use Survey*, which was last conducted in 1997 and is scheduled to be conducted again in 2005. From this, the *ABS* estimates the value (financial) of unpaid work to be approximately \$250 billion dollars—equal to half the size of the Australian GDP. 65% is done by women.

In spite of the fact that another *Time Use Survey* will be conducted before the 2006 Census, the *ABS* has been asked by the Federal Government to include a question on unpaid work in the next Census. Peter Boyer's pertinent point, in his thought-provoking letter to *The Mercury*, [see Newsletter No. 176] regarding the undervaluing of something which cannot be given a numerical dollar value, that is *social labour*, still bears pondering.
